★★★★★ " CLIENT REVIEWS " ★★★★★

" I keep going back to BOING because I really like their attention to detail while mixing. The acoustics are amazing, and the atmosphere's always relaxed. It's one of the few sound studios whose interiors aren't inspired by coffins."

AYAPPA - Film Director

" The access to great gear, constant desire to improve, chill people, technical know-how, interesting conversations, great staff, and super talented engineers make BOING an amazing studio to work in."

Karan Kulkarni - Music Director

" Feeling relaxed and welcomed at a studio is important to me. The atmosphere at BOING is PRIMO! And so are the people. One of the best studios to work at."

Rahul Mulani - Voice Over Artist
